This release contains the following new features:

TFS ID	Type	Description of change
31587	Change Request	System optimisation.
32556	User Story	Changes have been made to the desktop service to allow a controlled roll out of the new desktop application.
33213	User Story	When opening documents from EMIS users are now directed to the document viewer in Docman so that they can select the document they need to view from the document list. This affects practices that previously used the Docman 7 Lightweight Viewer.
