New Inactive Patient Banner:

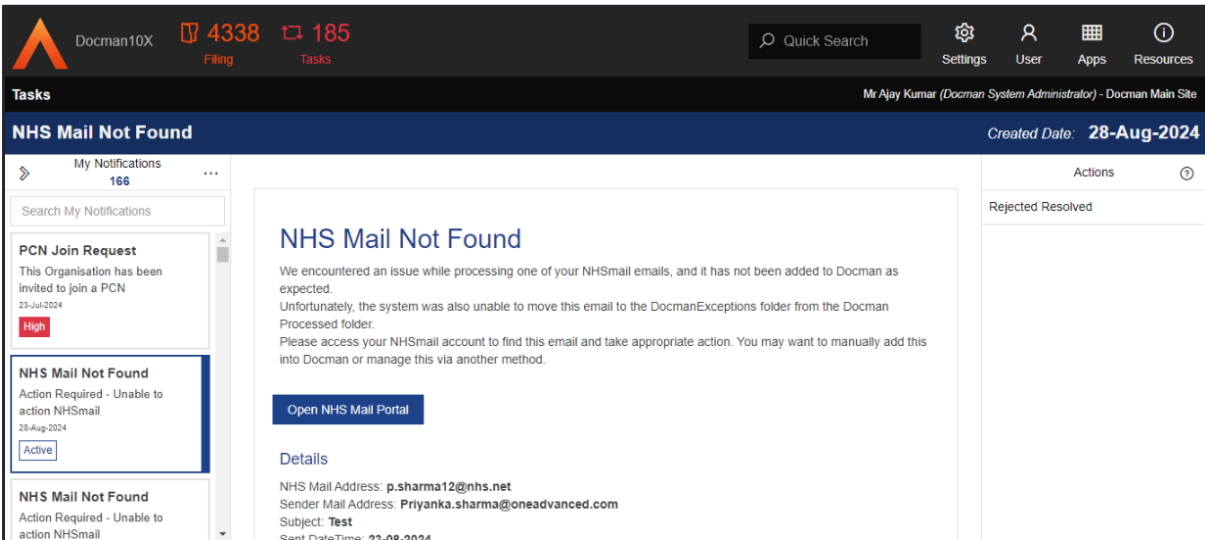

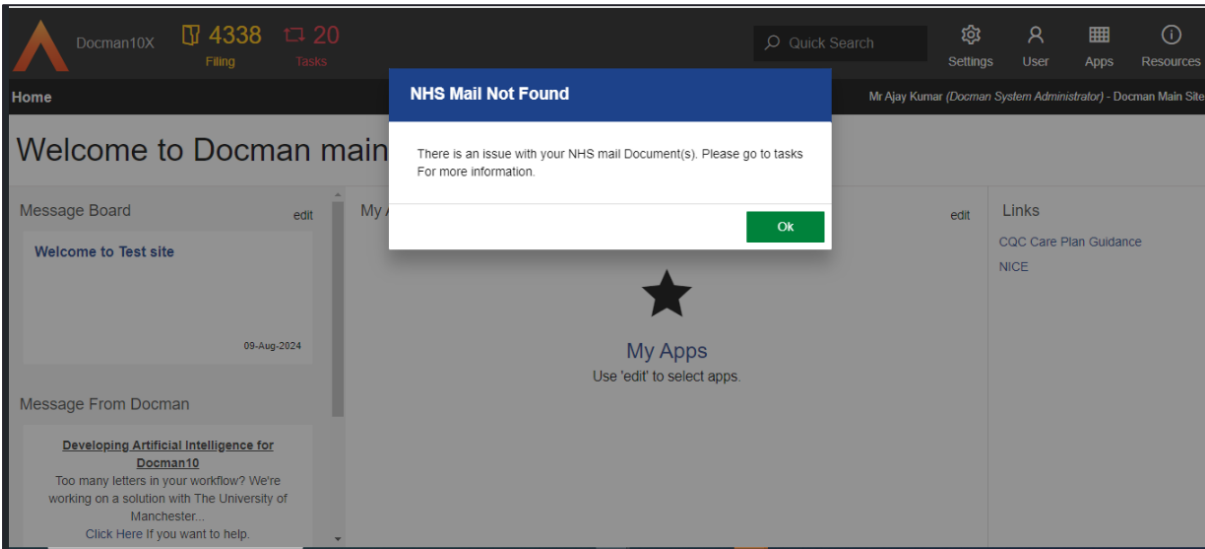

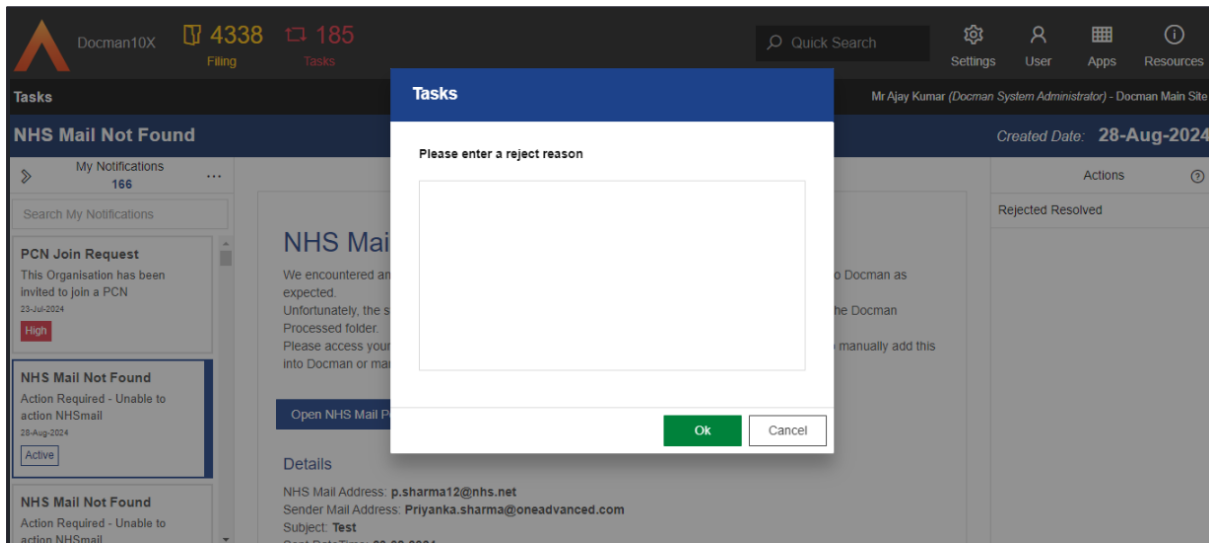

New Notification and Popup for Connect missing document object

Internal references D10-11358 & D10-11359

Description

There will be a new notification type and popup for System Admin users, when Connect has a missing NHSmail object, which will advise the System Admin user that they need to process as "Rejection Resolved".

Defect Fixes

✂
Organisations to be updated with an additional PEPREENABLED flag

Internal reference D10-12363

Description

Following fix for D10-11692 in release 226 (where PEPR API call of “Patient Document” was giving a 404 Not Found error), a further modification was required to provide sites with a PEPR Claim without using the SHAREENABLED option set.

✂
Deleting Connect documents while leaving them in Delivered

Case 23575364 | Internal reference D10-11464

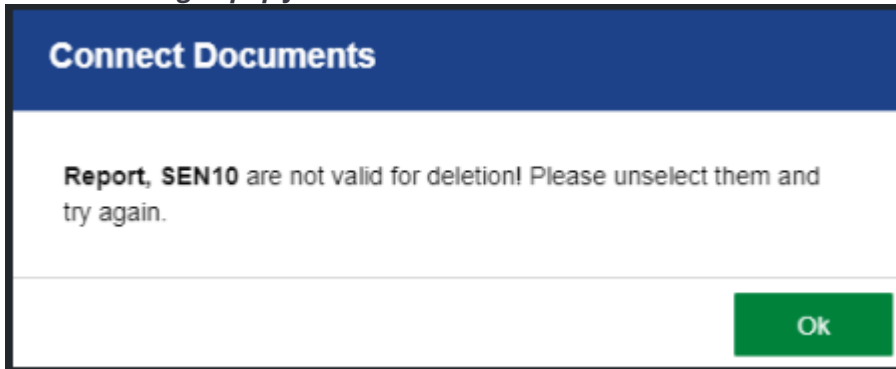

Problem

Connect documents can be deleted in Select Mode, without updating Connect status.

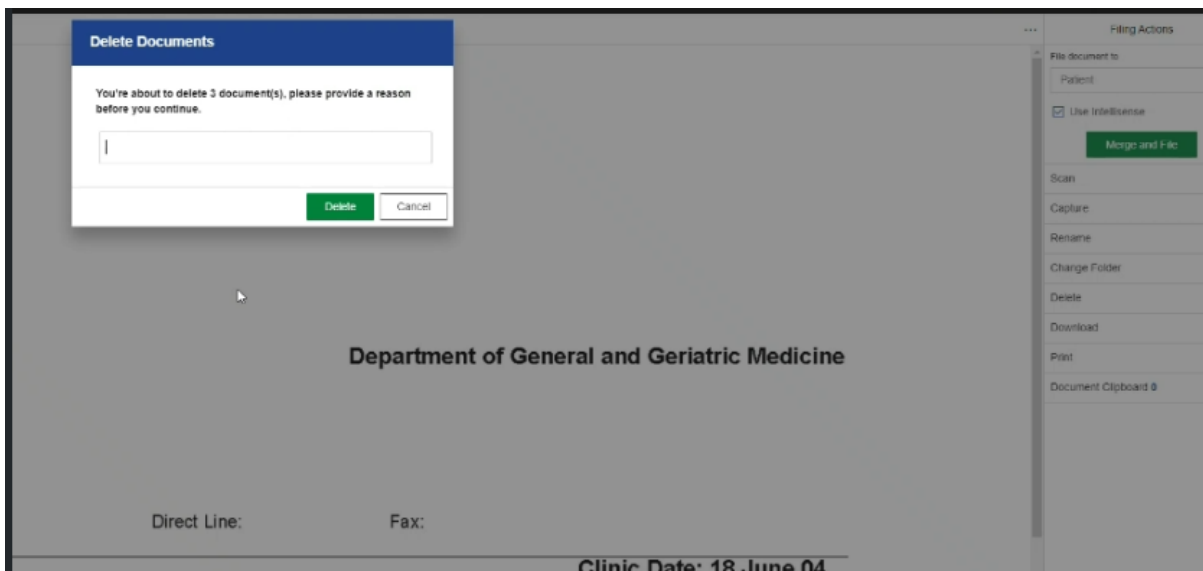

Description

Prevent deletion of Connect documents in Select Mode in Filing (normal and task based). If multiple documents are selected in “select mode” and any document/s are for Connect, there will be a new popup to state document/s are not valid for deletion (see screen shot below) and the user can deselect those documents before proceeding. If documents selected for deletion are valid, the current popup will show as now (see screenshot).

New - Warning Popup for Connect documents
