## What's New?

### Batch Manager - Bulk Select and Bulk Move

Internal reference D10-12189

#### **Description**

User will be able to Bulk Select and Bulk Move in batch manager, to save time and “clicks” when moving multiple documents.

## Defect Fixes

### PEN Rectification – Code Obfuscation Improvements

Internal reference D10-11512

#### **Description**

Improve the code obfuscation so that it cannot be readily decompiled/human readable and therefore not subject to malicious intent.

### Scotland SCI Gateway: Content Type for JSON

Internal reference D10-12597

#### **Description**

Content Type header for responses was set to application/json instead of application/fhir+json

### Scotland SCI Gateway: POST and PATCH requests should return the full resource not the OperationOutcome

Internal reference D10-12598

#### **Description**

Update POST and PATCH request to return no body in response, so that when the return header is not supported, either no body or the full resource can be returned, as per the FHIR specification.

### Scotland SCI Gateway: \_summary parameter

Internal reference D10-12749

**Description**

Update response to “-summary” in line with FHIR standards.

### DM10 | Able to merge API documents

Internal reference D10-12129

**Description**

It is possible to merge an API document with a Scanned document. When this is filed, the status is not passed back to Connect for the API document.

**Kind Regards, The Docman GP Team**
