

RELEASE NOTE

Docman 10x

Customer Release

Version 2.245.0

Joanna James, Principal Product Owner

18/03/2025

Disclaimer

Copyright © OneAdvanced 2025.

This document contains confidential and / or proprietary information. The content must not be disclosed to third parties without the prior written approval of Advanced Computer Software Group Limited or one of its subsidiaries as appropriate (each referred to as “OneAdvanced”). External recipients may only use the information contained in this document for the purposes of evaluation of the information and entering into discussions with OneAdvanced and for no other purpose.

Whilst OneAdvanced endeavours to ensure that the information in this document is correct and has been prepared in good faith, the information is subject to change and no representation or warranty is given as to the accuracy or completeness of the information. OneAdvanced does not accept any responsibility or liability for errors or omissions or any liability arising out of its use by external recipients or other third parties.

No information set out or referred to in this document shall form the basis of any contract with an external recipient. Any external recipient requiring the provision of software and/or services shall be required to enter into an agreement with OneAdvanced detailing the terms applicable to the supply of such software and/or services and acknowledging that it has not relied on or been induced to enter into such an agreement by any representation or warranty, save as expressly set out in such agreement.

The software (if any) described in this document is supplied under licence and may be used or copied only in accordance with the terms of such a licence. Issue of this document does not entitle an external recipient to access or use the software described or to be granted such a licence.

The development of OneAdvanced software is continuous and the published information may not reflect the current status. Any particular release of the software may not contain all of the facilities described in this document and / or may contain facilities not described in this document.

Advanced Computer Software Group Limited is a company registered in England and Wales with registration number 05965280 whose registered office is at The Mailbox Level 3, 101 Wharfside Street, Birmingham, B1 1RF.

A full list of its trading subsidiaries is available at www.oneadvanced.com/privacy-policy/

Defect Fixes

DM10 | Task Tracker Report Issue - Filters

Internal reference D10-5727 | Support Case 22011777

Description

The “Created By” and “Actioned by” filters were not working, and in addition if a User and Group ID matched this was showing incorrect results on the “Recipient Group” filter.

Document Audit Text Issue

Internal reference D10-12606

Description

A security change impacted the characters being displayed on the Document Audit, losing the context of the history, this has now been fixed. Previous examples of the issue reported:

Example 1:

The text ‘Sent to GP Group for Medication Review on 12/09/2024’

Would now display as ‘Sent to GP Group for Medication Review on 12/09/2024’

Example 2:

The text ‘Patient has advised that previous medication was “clearly ignored” during their last request’

Would now display as ‘Patient has advised that previous medicated was "clearly ignored" during their last request’

D10 | Automatically assign Event Date checkbox does not save

Internal reference D10-13733 | Support Case 23262801

Description

From Settings >> Filing >> Templates >> Open a Filing Template >> selecting/deselecting the “Automatically assign the current date as the Event Date” checkbox is not saving. This has been fixed

Access to User Activity Reports

Internal reference D10-12936 | Support Case 23809060

Description

The User Activity Reports should be available to the following roles:

- Caldicott Guardian
- Docman Supervisor
- Privacy Officer
- Custom Roles (provided Custom Role has the ‘Access User Activity Reporting’ feature against it)

 **Change wording on PFS message**

Internal reference D10-11372

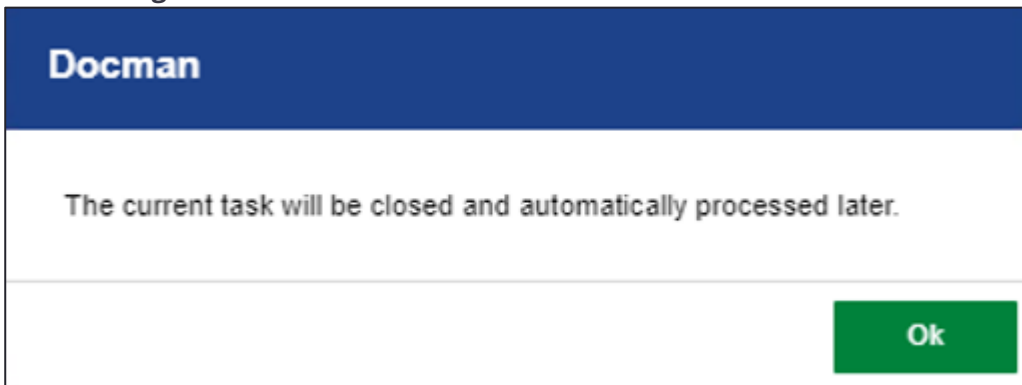

Description

When doing a clinical coding task without DTA running/connection, the error message displayed referred to the DTA. However, the DTA is no longer used to process this information (done via the clinical interaction tool), so the wording is misleading

Old Message

New Message

 **Scotland Migration: CHI Number in Data11 Field**

Internal reference D10-13722

Description

Scotland ONLY: The data migration process for DM7 to DM10 is currently moving the CHI Number Data 12 field, but it should be in Data 11 field.

 **Scotland Patient Sync: Change Cegedim Vision LAN Patient Sync to be same as Vision Hosted**

Internal reference D10-13742

Description

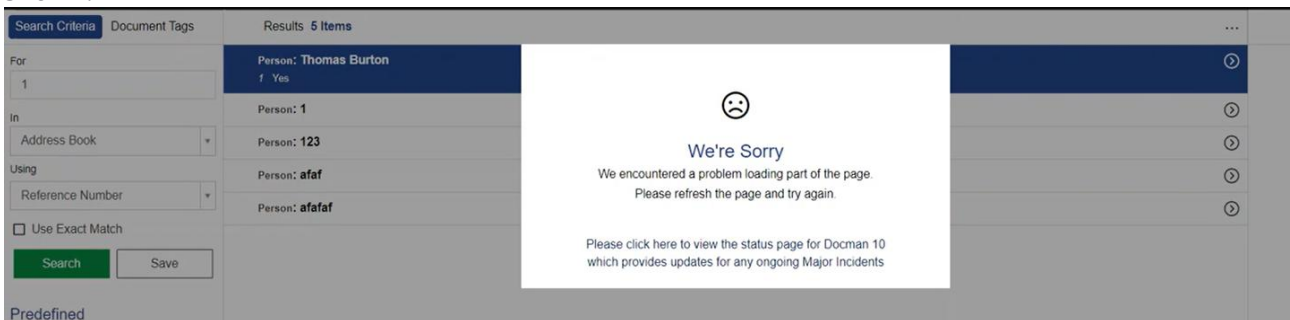

Scotland ONLY – amend the Patient Sync for Cegedim Vision LAN to be the same as for Vision Hosted.

 **D10| Address book not opening entries in “Extra Details”**

Internal reference D10-12688 | Support Case 23758069

Description

When user tried to access the “Extra Details” in address book after searching for an entry, an error was shown:

 **Unable to delete a Connect document after printing**

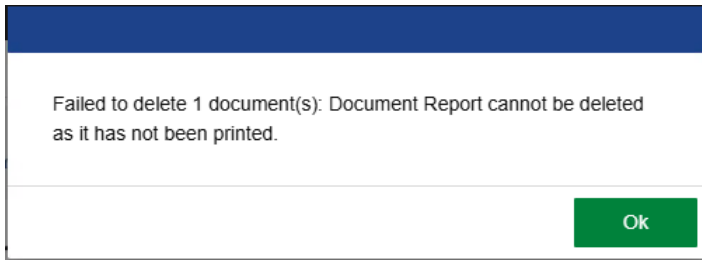

Internal reference D10-13732 | Support Case 23774379

Description

Connect documents can only be deleted if they have been printed, and should send a status update of “Accepted” back to Connect – this is to circumvent a previous issue/scenario where users were printing out a Connect document and then rejecting it. All “GP” originating documents are eligible for deletion without printing first. The current system is trying to show/hide the deletion button based on the business logic, but it doesn’t work properly in multi selection mode, where a combination of “GP” docs and ineligible Connect docs are selected

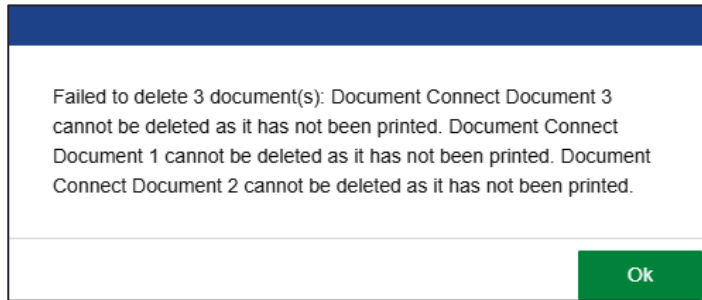

This change will mean that:

- The action pane on the right will ALWAYS show both Delete and Print options for all document types and eligibility
- A message will appear if user selects only 1 ineligible Connect document for deletion (i.e. which hasn’t been printed) – whether just selecting that 1 document, or selecting multiple documents of which only that 1 is ineligible for deletion
 - Any eligible GP document/s will still be deleted
 - Any eligible Connect documents will be deleted and send “Accepted” status to Connect

A message will appear if user selects more than 1 ineligible Connect document for deletion.

- Any eligible GP document/s will still be deleted
- Eligible Connect documents will be deleted and send "Accepted" status to Connect

 **Annotations causing unsaved rotation to revert**

Internal reference D10-13735

Description

When a user rotated a document and then annotated without saving the rotation, the document was self correcting back to the original rotation and losing the annotation made.

A simple change to the toolbar above the document, to rename "save" as "save rotation" has been made to encourage the user behaviour of saving rotation before starting annotation.

 **DTA Certificate Renewal**

Internal reference D10-13689

Description

Renewal of DTA Certificate, which expires 24th April 2025

Kind Regards, The Docman GP Team

Powering the world of work

Our business software is the trusted choice for critical sectors, including healthcare, legal services, and education. We keep the world of work moving.
