

# External Release Note

## GP/SC.19.R1.83 (Version 83)

### Notes / Special Instructions:

This release contains the following work items:

Work Item Type	Title	Description
User Story	Practice Unbound Reports	For customers working with Practice Unbound, we have added two reports to Docman 10 to assist with getting workflow feedback.
User Story	Search option within Capture and Filing	We have added the option within Capture and Filing to be able to search for metadata on a document sent from Docman Hub (Patient details, document details and organisation details). We have also added the option to be able to search for the date a document was pulled into Docman.
User Story	GP Online Correspondence Query – API work for trial	We are carrying out some API work to trial a new feature with a customer - this new feature could potentially allow users from a GP surgery with Docman 10, to communicate with users from a Secondary Care setting, without Docman 10) through what is currently known as Discussions.
User Story	Vision XXX Migration Tool	We have created a tool for the migration team to be able to convert XXX files to .dm10 files.
Bug	When editing a user, it's possible to set Out Of Office without specifying a reason	If setting a user as Out of Office via Settings > User > Edit User (by clicking on user's name or the arrow under Action

		The reason can be left blank. We have now amended this so users have to enter a reason, as this is a requirement from NHS Digital.
Bug	System error logged when user already federated to an organisation	Federated Working Pilot: If a user is already Federated to the organisation they are trying to send a request for, it will present a clearer message to the user.
