**Notes / Special Instructions:** n/a

This release contains the following items:

JIRA ID	ServiceNow Ref	Area	Type	Title	Description
D10-956	Internal	GP	Feature	SNOMED Highlight Inactive Codes	A new feature was added to highlight any inactive clinical codes received from Hub/Connect. When carrying out a clinical coding task the unsupported codes will be shown under an "Unsupported Codes" action, which you can click to view and select alternatives (see screenshots)
D10-1142	Internal	Both	Bug	OoO Reason Asterisk	A bug was fixed where certain mandatory fields on a user weren't displaying as mandatory. These fields should now have an asterisk correctly.
D10-1038	Internal	Both	Bug	Add files button not appearing correctly	Fixed a bug where the Add Files Button doesn't appear when capturing a document from within a folder when a document from that folder is selected (IE Only).
D10-891	Internal	Both	Bug	Exception Thrown after clearing Search Field	Fixed a bug where an exception was being thrown after clearing the search field and then trying to switch to a different page, this will no longer occur
D10-873	Internal	Both	Bug	Vintasoft viewer displaying wrong document	Fixed a bug where when looking at revisions of documents sometimes the wrong revision would be shown. The correct revision should now be shown.
D10-1183	DFCT0011185	Both	Change	Poor DTA Performance on Start Up	A change was made to the Desktop App following a report of poor performance. Many of the services were triggered on start-up unnecessarily, these have been moved to a different section which should improve performance
D10-1056	Internal	Both	Bug	Chrome – Pasting Over Filing Date	A bug was fixed where the filing date couldn't be edited (which is correct) but could have a value pasted over it. This will no longer be allowed.
