External Release Notes

Report created at: 24/04/2019 16:25

Notes / Special Instructions: n/a

This release contains the following items:

JIRA ID	ServiceNow Ref	Area	Type	Title	Description
D10-1238	N/A	GP	New Feature	SNOMED Not Mapped Codes	A new feature was added to make SNOMED easier to use for users with a large number of pre-defined codes. Instead of requiring users to scroll through the list of READ codes to find the ones that didn't map to SNOMED, the user will instead have a separate list below the SNOMED codes that lists all of the codes not mapped.
Various	DFCT0011215 DFCT0011225	RMS	Defect	Merge Template Issues	A number of defects were identified with Merge Templates. Certain images were causing crashes when copied into a merge template and various activities were causing the error page to be presented.
D10-328	N/A	GP	New Feature	Hard Copy Printed (GP IT Futures)	A new feature was added to improve the information provided when printing a document. The pages being printed and a completion message are now displayed
D10-1269	N/A	GP	Defect	Barndoc Report Defect	A defect was fixed where the Barndoc reports were not running. This was due to the function being removed as part of a different project, this was rectified and the function reintroduced.

SNOMED Highlight Inactive Codes

New list of unmapped codes shown at the bottom of the screenshot

Mapped SNOMED Codes

These will be used once your clinical code scheme setting is changed to SNOMED.

Term	Code
