Notes / Special Instructions: Although this release and future releases may contain work related to FHIR Transfer of Care, this functionality is not yet currently available.

This release contains the following items:

JIRA ID	SN/SF Ref	Type	Title	Description
D10-3084	N/A	Story	Creation of new TOC validation check - MH discharge	As part of the FHIR ToC project, validation is needed in real-time for the API so that senders can correct any failing documents in quick turnaround. This work is the creation of the initial validation check and now validates FHIR ToC documents in real time taking into consideration any optional fields that may be included.
D10-3337	N/A	Story	FHIR Validation - Patient Demographics Section	FHIR ToC document validation has been split into sections. This work includes the validation of the Patient Demographics Section.
D10-3366	21697284	Defect	API Consumers page only displays 10 consumers and only shows 1 page	As a PCTI user the API Consumers page was only display 10 consumers on a page even if more should be displaying. This was due to the page selection option missing from the API Consumers page. This issue has now been resolved and should no longer be an issue.
D10-3368	N/A	Story	FHIR Validation - Encounter entry	FHIR ToC document validation has been split into sections. This work includes the following: - Admission Details section - Discharge Details section. All sections are validated and returns and validation errors if necessary.
D10-3369	N/A	Story	FHIR Validation – List Sections	FHIR ToC document validation has been split into sections. This work includes the following sections:

				- Allery & Adverse Reactions entry - Diagnoses entry - Procedures entry - Medications & Medical Devices entry All sections are validated and returns and validation errors if necessary.
D10-3370	N/A	Story	FHIR Validation – Person completing record section	FHIR ToC document validation has been split into sections. This work includes the following sections: - Discharge Details entry - Distrubtion List entry - Person completing record entry - Referrer Details entry All sections are validated and returns and validation errors if necessary.
D10-3371	N/A	Story	FHIR Validation – Organisation entry	FHIR ToC document validation has been split into sections. This work includes the following sections: - Distribution List entry - GP Practice entry - Referrer Details entry All sections are validated and returns and validation errors if necessary.
D10-3714	21718028	Defect	All Documents Rejected Incorrectly	When Connect 122 was released the support teams started to notice a number of senders failing to send due to the date formatting, users received either a DC01.41 or a DC01.09 error. This was caused by an update to the date validation within the API. These changes have now been removed from Connect until further notice.
