

Connect 124

Release Notes

Report created: 01/07/2020 11:30:00

Notes / Special Instructions: Although this release and future releases may contain work related to FHIR Transfer of Care, this functionality is not yet currently available.

This release contains the following items:

API				
JIRA ID	SN/SF Ref	Type	Title	Description
D10-3729	21719974	Defect	Date format remove: YYYYMMDD	A P1 defect was raised after a release of 122 which added validation to date format. Due to numerous customers using different formats, the validation was removed allowing the continuation of document flow.
D10-3308	N/A	Bug	API Audit for DC02 errors does not show ODS code	In the API audit logs for DC02 errors, the errors did not hold the ODS code for the recipient organisation. These errors have now been changed to capture the recipient OSD used to post.

Console				
JIRA ID	SN/SF Ref	Type	Title	Description
D10-3688	N/A	Bug	Support Portal URL incorrect	After the internal move from Service Now to Salesforce, the support portal option on the Connect console was pointing towards the old customer portal. This has now been updated to the correct Salesforce URL (https://customers.advancedcomputersoftware.com/s/)
D10-2597	21705078	Defect	Document count tiles not working	When clicking on the document count tiles in the Connect console, the documents list should filter based on the tile selected. This was not the case and instead did not filter the documents list at all. A fix has now been applied which fixes the document count tile filter and should now work as expected.
D10-3375	N/A	Story	Change document export to export "Person" and not console source user ID	A recent change was made to the document export which added a "Person" column however this was actually showing the source user ID instead of "Person" from the document metadata. A change has now been made to amend this column.

D10-3285	N/A	Bug	Sender Consumer access type filter not required	Sender consumers only have one access type and do not need the "Access Type" filter/ This filter has now been removed for sender consumers.

Infrastructure

JIRA ID	SN/SF Ref	Type	Title	Description
D10-3724	21718688	Defect	ConnectBot: Documents not being moved to Exceptions folder	An issue was found when the NHS mail collections were running. When a document was collected and subsequently failed to convert, the email should have been moved to the sites Exception folder on the NHS mail account. A fix has now been added which marks any conversion failed documents as "Rejected on Hold" and the email is moved to the Exceptions folder as expected.
