Connect 127
Release Notes

Report created: 11/08/2020 08:21:00

docman
delivering paper free care
an **advanced** company

Notes:

Although this release and future releases may contain work related to FHIR Transfer of Care, this functionality is not yet currently available.

This release contains the following items:

API

JIRA ID	SF/Ideas Ref	Type	Title	Description
N/A	N/A	N/A	N/A	N/A

Console

JIRA ID	SF/Ideas Ref	Type	Title	Description
DCMC-24	N/A	Change	Uncomment "Connect Active" check within Org Class	In a previous release we commented out the functionality for Connect enabled which allow sites to be active to collect site documents but not receive any future document. This change is to uncomment this functionality within Connect to allow sites to utilise the Connect Active flag once again.
DCMC-150	N/A	Bug	Collection user when we click on document list it navigates to error page	An issue was identified during sprint where when a Collection user tries to navigate to the document list, it would instead take the user to an error page. This issue has now been fixed and navigation now works as expected.

Infrastructure

JIRA ID	SF/Ideas Ref	Type	Title	Description
DCMC-25	N/A	Change	Move Connect to FHIR service	This change has been created to move certain functionality over to the standalone FHIR service and configure Connect to use the new service. This should mean that the FHIR service is reusable and accreditation is only needed once if reused within the business.
DCMC-90	N/A	Task	Automation Testing	Task created to allow time for automation testing.
DCMC-89	N/A	Task	Automation Scripting	Task created to allow time for automation scripting.
