This document contains confidential and / or proprietary information. The content must not be disclosed to third parties without the prior written approval of Advanced Computer Software Group Limited or one of its subsidiaries as appropriate (each referred to as "Advanced"). External recipients may only use the information contained in this document for the purposes of evaluation of the information and entering into discussions with Advanced and for no other purpose.

Whilst Advanced endeavours to ensure that the information in this document is correct and has been prepared in good faith, the information is subject to change and no representation or warranty is given as to the accuracy or completeness of the information. Advanced does not accept any responsibility or liability for errors or omissions or any liability arising out of its use by external recipients or other third parties.

No information set out or referred to in this document shall form the basis of any contract with an external recipient. Any external recipient requiring the provision of software and/or services shall be required to enter into an agreement with Advanced detailing the terms applicable to the supply of such software and/or services and acknowledging that it has not relied on or been induced to enter into such an agreement by any representation or warranty, save as expressly set out in such agreement.

The software (if any) described in this document is supplied under licence and may be used or copied only in accordance with the terms of such a licence. Issue of this document does not entitle an external recipient to access or use the software described or to be granted such a licence.

The development of Advanced software is continuous and the published information may not reflect the current status. Any particular release of the software may not contain all of the facilities described in this document and / or may contain facilities not described in this document.

Advanced Computer Software Group Limited is a company registered in England and Wales with registration number 05965280 whose registered office is at Ditton Park, Riding Court Road, Datchet, Berkshire. SL3 9LL.

A full list of its trading subsidiaries is available at www.oneadvanced.com/legal-privacy

Overview

This release contains development work completed in sprints 150, 151 and 152.

Some additional features have been added to Automated Coding as well as a fix for a defect. Docman 10 has also been tested with Microsoft Edge and we now officially support the use of this browser.

RMS Changes

This release contains the following RMS specific changes:

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-6234	22091441	Defect	Unable to capture a document in TS2 environment	When attempting to capture a document to add to Docman RMS the User is presented with an error message. A fix has now been applied.
D10-6233	22083922	Defect	Deceased patient status not updating on TS2	When a HL7 message is sent from the PAS to RMS with a date of death, the patient still shows as inactive rather than deceased. A fix has been applied so that this status can be supported and updated in RMS.

GP Changes

This release contains the following GP specific changes:

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-5612		Feature	Automated Coding Add additional Problem attributes to coding list	The Automated Coding feature will show Users Problem-specific information relating to a term in the AI codes list rather than having to click on the suggested term to see this information.
D10-5302		Feature	Automated Coding Ability to report suggested terms as incorrect	Users can report terms suggested by automated coding as incorrect following the introduction of a new flag icon. Clicking the flag will prompt the User to enter a reason for reporting the code. Advanced can use this information to further refine AI coding.
D10-5890		Feature	Update Snomed Browser with latest NHS digital release	Update Snomed Browser with latest NHS digital release
D10-5751		Task	Full regression test of Microsoft Edge Browser	Docman 10 now officially supports Microsoft Edge.
D10-6086	22069121	Defect	Documents duplicating in EMIS	If at the point of filing 'Start Clinical Coding Immediately after Filing' is enabled, completing the Coding Task creates a duplicate patient document in the clinical system. A fix has now been applied to resolve this issue.
