This document contains confidential and / or proprietary information. The content must not be disclosed to third parties without the prior written approval of Advanced Computer Software Group Limited or one of its subsidiaries as appropriate (each referred to as “Advanced”). External recipients may only use the information contained in this document for the purposes of evaluation of the information and entering into discussions with Advanced and for no other purpose.

Whilst Advanced endeavours to ensure that the information in this document is correct and has been prepared in good faith, the information is subject to change and no representation or warranty is given as to the accuracy or completeness of the information. Advanced does not accept any responsibility or liability for errors or omissions or any liability arising out of its use by external recipients or other third parties.

No information set out or referred to in this document shall form the basis of any contract with an external recipient. Any external recipient requiring the provision of software and/or services shall be required to enter into an agreement with Advanced detailing the terms applicable to the supply of such software and/or services and acknowledging that it has not relied on or been induced to enter into such an agreement by any representation or warranty, save as expressly set out in such agreement.

The software (if any) described in this document is supplied under licence and may be used or copied only in accordance with the terms of such a licence. Issue of this document does not entitle an external recipient to access or use the software described or to be granted such a licence.

The development of Advanced software is continuous and the published information may not reflect the current status. Any particular release of the software may not contain all of the facilities described in this document and / or may contain facilities not described in this document.

Advanced Computer Software Group Limited is a company registered in England and Wales with registration number 05965280 whose registered office is at Ditton Park, Riding Court Road, Datchet, Berkshire. SL3 9LL.

Overview

This release contains development work completed in sprints 157 and 158 which includes an enhancement to Docman Share, an Out of Office notification when using Quick Steps as well as fixes to RMS.

RMS Changes

This release contains the following RMS specific changes:

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-6476	22131620	Defect	Intellisense unable to pick up patient	If there were white spaces or certain characters before a patient name this prevented intellisense from being able to perform a patient match. This issue has now been resolved.
D10-6467	22137921	Defect	RMS - PEPR | Completed date timestamp was not appearing in the correct order for when tasks were finished.	When performing the API task updates call, the completed date timestamp was not appearing in the correct order for when tasks were finished This issue has now been resolved.

GP Changes

This release contains the following GP specific changes:

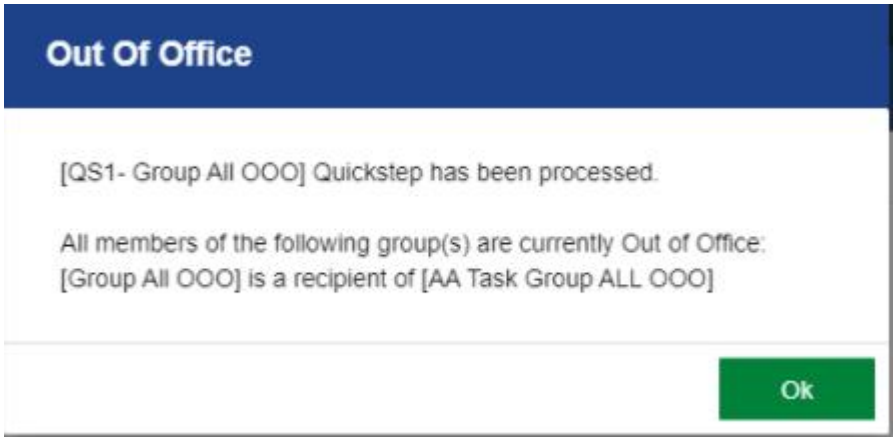
Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-6415		Feature	Docman Share | Document count to match no. of docs visible to User	An enhancement has been made to Docman Share so that the document count reflects the number of documents that have been shared with the end user from the specified shared date.

General changes

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-6325		Feature	Out of Office notification applied when using Quick Steps	When using a Quick Step to send a task, if all members of the recipient group are Out of Office a notification will appear to inform the User of this along with the name of the task that it relates to. Similarly, if there is a single recipient for a Quick Step action, the User will also be notified that this person is Out of Office.

Screenshots

D10-6325 Out of Office notification applied when using Quick Steps

The Out of Office notification, if triggered when using a Quick Step, will display the following information:


- The name of the Quick Step used
- The Group name / Individual User **if all** recipients of the task are Out of Office
- The name of the task that it relates to.
