This document contains confidential and / or proprietary information. The content must not be disclosed to third parties without the prior written approval of Advanced Computer Software Group Limited or one of its subsidiaries as appropriate (each referred to as “Advanced”). External recipients may only use the information contained in this document for the purposes of evaluation of the information and entering into discussions with Advanced and for no other purpose.

Whilst Advanced endeavours to ensure that the information in this document is correct and has been prepared in good faith, the information is subject to change and no representation or warranty is given as to the accuracy or completeness of the information. Advanced does not accept any responsibility or liability for errors or omissions or any liability arising out of its use by external recipients or other third parties.

No information set out or referred to in this document shall form the basis of any contract with an external recipient. Any external recipient requiring the provision of software and/or services shall be required to enter into an agreement with Advanced detailing the terms applicable to the supply of such software and/or services and acknowledging that it has not relied on or been induced to enter into such an agreement by any representation or warranty, save as expressly set out in such agreement.

The software (if any) described in this document is supplied under licence and may be used or copied only in accordance with the terms of such a licence. Issue of this document does not entitle an external recipient to access or use the software described or to be granted such a licence.

The development of Advanced software is continuous and the published information may not reflect the current status. Any particular release of the software may not contain all of the facilities described in this document and / or may contain facilities not described in this document.

Advanced Computer Software Group Limited is a company registered in England and Wales with registration number 05965280 whose registered office is at Ditton Park, Riding Court Road, Datchet, Berkshire. SL3 9LL.

GP Changes 3

Overview

This release contains development work completed in Sprints 165, 166, and 167.

RMS Changes

This release contains the following RMS specific changes:

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-6890		Feature	Update attachment list after merging to a main document	When an attachment is merged to a main document, it will no longer show in the 'Attachments' list. This will ensure it is not merged twice or assumed to be merged already and missed.
DRM-83	22071530	Defect	Automatic conversion of word document to TIFF when creating merge letters.	We have provided a flag in the settings to allow automatic conversion of word document to TIFF while creating merge letter. If this flag is enabled, while creating merge letters the word template is converted to TIFF and this resolves any page formatting issues that may arise. Customers will need to select the flag in settings.
DRM-84	21771043	Defect	When merge letters are created, a copy is being placed in Capture and Filing's "not in folder"	When creating a merge letter, the letter will only get filed against the corresponding patient and will no longer duplicate to 'not in a folder'.

GP Changes

This release contains the following GP specific changes:

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-6443	22120629	Defect	Apostrophes in Clinical ID values causing sites to be unable to edit or add roles.	Docman was unable to handle apostrophes in Clinical ID values. If an ID associated with a site included an apostrophe was pulled through from a clinical system, it left sites unable to add or edit roles. This defect has been fixed.
