This document contains confidential and / or proprietary information. The content must not be disclosed to third parties without the prior written approval of Advanced Computer Software Group Limited or one of its subsidiaries as appropriate (each referred to as “Advanced”). External recipients may only use the information contained in this document for the purposes of evaluation of the information and entering into discussions with Advanced and for no other purpose.

Whilst Advanced endeavours to ensure that the information in this document is correct and has been prepared in good faith, the information is subject to change and no representation or warranty is given as to the accuracy or completeness of the information. Advanced does not accept any responsibility or liability for errors or omissions or any liability arising out of its use by external recipients or other third parties.

No information set out or referred to in this document shall form the basis of any contract with an external recipient. Any external recipient requiring the provision of software and/or services shall be required to enter into an agreement with Advanced detailing the terms applicable to the supply of such software and/or services and acknowledging that it has not relied on or been induced to enter into such an agreement by any representation or warranty, save as expressly set out in such agreement.

The software (if any) described in this document is supplied under licence and may be used or copied only in accordance with the terms of such a licence. Issue of this document does not entitle an external recipient to access or use the software described or to be granted such a licence.

The development of Advanced software is continuous and the published information may not reflect the current status. Any particular release of the software may not contain all of the facilities described in this document and / or may contain facilities not described in this document.

Advanced Computer Software Group Limited is a company registered in England and Wales with registration number 05965280 whose registered office is at Ditton Park, Riding Court Road, Datchet, Berkshire. SL3 9LL.

A full list of its trading subsidiaries is available at www.oneadvanced.com/legal-privacy

Overview

This release contains development work completed in Sprints 172 and 173, it consists of a small number of general bug and defect fixes identified within the software. Further details below.

We have also given GP users the ability to identify GPs within their own practices. This is the first step in gaining a better understanding of workflow within the practices and helping us to enhance the system.

RMS Changes

This release contains the following RMS specific changes:

| Jira ID | Salesforce / Service Now Ref | Type | Title | Description |
|----------|------------------------------|-------------|-------------------------------------|--|
| D10-7487 | 22802232 | Defect | Increase Merge limit from 20 pages. | A maximum page limit for merging attachments was introduced to fix a problem at a particular site. This has now been placed behind a feature flag so that only the affected site has the page limit set. |
| D10-7286 | | Enhancement | Merged documents. | When an attachment has been merged to a document, it now shows in the attachment list greyed out with a 'merged' flag. |

GP Changes

This release contains the following GP specific changes:

| Jira ID | Salesforce / Service Now Ref | Type | Title | Description |
|----------|------------------------------|---------|--|--|
| D10-7686 | | Feature | Identify GP users in Docman | An organisation can now identify which of their users are GPs. This will help us better understand how they use the system and may enable us to enhance in the future. |
| D10-7317 | 22723712 | Defect | Ensure filed documents cannot be deleted by accident | <p>Previously, if one user filed a document and another already had it open within their Docman screen they could delete it as if it hadn't been filed.</p> <p>This fix ensures that only users with the appropriate permissions can delete filed documents.</p> |
| D10-7303 | 22407112 | Defect | Fix Merge and Filing Process | When multiple documents were selected within 'Capture and Filing' and a 'File and Merge' selected the system returned you to the first page after the coding was complete. It now takes you back to the 'Capture and Filing' screen. |
