This document contains confidential and / or proprietary information. The content must not be disclosed to third parties without the prior written approval of Advanced Computer Software Group Limited or one of its subsidiaries as appropriate (each referred to as "Advanced"). External recipients may only use the information contained in this document for the purposes of evaluation of the information and entering into discussions with Advanced and for no other purpose.

Whilst Advanced endeavours to ensure that the information in this document is correct and has been prepared in good faith, the information is subject to change and no representation or warranty is given as to the accuracy or completeness of the information. Advanced does not accept any responsibility or liability for errors or omissions or any liability arising out of its use by external recipients or other third parties.

No information set out or referred to in this document shall form the basis of any contract with an external recipient. Any external recipient requiring the provision of software and/or services shall be required to enter into an agreement with Advanced detailing the terms applicable to the supply of such software and/or services and acknowledging that it has not relied on or been induced to enter into such an agreement by any representation or warranty, save as expressly set out in such agreement.

The software (if any) described in this document is supplied under licence and may be used or copied only in accordance with the terms of such a licence. Issue of this document does not entitle an external recipient to access or use the software described or to be granted such a licence.

The development of Advanced software is continuous and the published information may not reflect the current status. Any particular release of the software may not contain all of the facilities described in this document and / or may contain facilities not described in this document.

Advanced Computer Software Group Limited is a company registered in England and Wales with registration number 05965280 whose registered office is at Ditton Park, Riding Court Road, Datchet, Berkshire. SL3 9LL.

A full list of its trading subsidiaries is available at [www.oneadvanced.com/legal-privacy](http://www.oneadvanced.com/legal-privacy)

---

## Overview

This release contains development work completed in Sprints 178, 179, 180 and 181 it contains it consists of a small number of enhancements, general bug and defect fixes identified within the software. Further details below.

## RMS Changes

This release contains the following RMS specific changes:

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-7776	22858319	Defect	Editing reviewers on workflow	The RMS system was getting stuck if an attempt to edit a document's reviewers was made. We fixed this issue for group reviewers in the previous release and have now fixed it for single reviewers.
D10-7631	22857160	Defect	Issue adding new patients	Double clicking too quickly on the 'Add New Patient' functionality would break the next stage of the process and the user would not be able to move on after adding patient details. The 'Add New Patient' button is now removed after being clicked once, so this cannot happen again.

## GP Changes

This release contains the following GP specific changes:

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-6696	22179909	Defect	PFS visibility isn't being updated if the DTA isn't running when the visibility is set.	If a user was setting the PFS visibility when their DTA isn't running, the visibility is now set as soon as the DTA is running again. Previously there was a long delay.
D10-7000		Enhancement	Ability to hide inactive patients from intellisense.	<p>New setting has been added to Organisation settings &gt; Filing titled "Hide Inactive Patients from Intellisense."</p> <p>This restricts the user from selecting inactive patients when filing a document.</p>
D10-7757 D10-7758		Enhancements	Improvements to AI Coding.	In this release we have made changes to the AI Coding feature which its currently only available to Early Adopters. We are using AI to filter the responses better to show more relevant suggested codes, we have also changed how dates are applied to prevent erroneous dates being applied to codes.

## General Changes

This release contains the following changes:

Jira ID	Salesforce / Service Now Ref	Type	Title	Description
D10-6251	22096154	Bug	"Mark as Read" button within discussion does not work.	If a user now clicks the "Mark as Read" button, the user is now able to delete the message from their discussion list.
D10-7500	22804995	Defect	"My Reports" dropping selected users.	When using the "My Reports" feature, the system will now save the previously selected users for a saved report.
